Abstract submission deadline	14 th Jan 2022 by 11:59 pm PDT
Abstract review notification	14 st Feb 2022 by 11:59 pm PDT
Early registry deadline	4 th March 2022 by 11:59 pm PDT

Abstract Submission

Submit your abstract as a Microsoft Word Document, and answer the following questions, in an email to ISAENA2022@gmail.com.

- a) Abstract title:*
- b) Poster or oral presentation preference:*
- c) Name of presenting author:*
- d) Is the presenting author a student?*
- e) Is the abstract attached as a word doc to this email?*

Abstract Guidelines

The abstract must not exceed 3500 keystrokes, including 500 keystrokes for title, authors, and affiliations. If the latter exceeds 500 keystrokes, the available keystrokes for the abstract text are reduced accordingly. The title can contain a maximum of 125 keystrokes. The first name of all authors, not just initials, should be given.

Abstracts must contain a clear statement of the purpose of the work, the methods used, the results, and conclusions. Results should be presented in sufficient detail to support the conclusions drawn. Submitted abstracts should contain data, indicate the method(s) of analysis, and provide information about test statistics. Abstracts without results will NOT be considered.

Although authors may submit multiple abstracts, each presenting author may present only one spoken paper, or one poster (not both a paper and a poster). If the presenting author is not registered by the early registration deadline (4th March 2022), the abstract will be removed from the proceedings and the place in the program will be allocated to another presenter.

When preparing your abstract, please follow ISAE's Abstract Submission Standard, which is Appendix II of ISAE's [Procedural Guidelines](#). It may also be useful to view the Guide for Reviewers of Abstracts when preparing your abstract (Appendix III of the Procedural Guidelines). Pay particular attention to the ISAE Ethical Guidelines and address any potential ethical concerns in your abstract.
