Society for  
Applied  
Ethology

THE UNIVERSITY  
OF QUEENSLAND  
AUSTRALIA

## PRELIMINARY PROGRAM 11th Nov 2017

<b>9:00</b>	<b>Opening of the International Society for Applied Ethology, Australasia-Africa 2017 Regional Meeting</b>	
<b>9:15</b>	<b>Plenary Speaker: Dr Eric Vanman - Why do we cry?</b>	
<b>10:15</b>	Morning tea	
<b>10:45</b>	Gosia Zobel	<i>Will dairy goats naïve to climbing opportunities interact with a platform?</i>
<b>11:00</b>	Grisel Navarro	<i>Behavioral and physiological effects of a combination of space and motion during simulated sea transport conditions in sheep</i>
<b>11:15</b>	Ramazan Col	<i>Effects of space allowance and simulated sea transport motion on heart rate variability of sheep</i>
<b>11:30</b>	Kris Descovich	<i>Can environmental enrichment reduce the prevalence of regurgitation and reingestion behaviour in captive orangutans?</i>
<b>11:45</b>	Caralyn Kemp	<i>Attending to affective state: attention bias as a measure of psychological welfare in rhesus macaques</i>
<b>12:00</b>	Lunch	
<b>13:00</b>	Peta Taylor	<i>Relationships between accessing an outdoor range and fearfulness in commercial free-range broiler chickens</i>
<b>13:15</b>	Paige Matthews	<i>Quantifying alpaca behavioural responses to a simulated predatory threat</i>
<b>13:30</b>	Lydia Rehnberg	<i>The effect of behind-the-scenes encounters and interactive presentations on the welfare of captive servals (<i>Leptailurus serval</i>) at Werribee Open Range Zoo</i>
<b>13:45</b>	Giverny Forbes	<i>An observational study of the behaviour of captive sun bears (<i>Helarctos malayanus</i>)</i>
<b>14:00</b>	Cheryl O'Connor	<i>What can applied ethology tell us about managing cows on stand-off pads?</i>
<b>14:15</b>	Amanda Doughty	<i>Commercial applications of behavioural research</i>
<b>14:30</b>	Afternoon tea	
<b>15:00</b>	Kris Descovich	<i>Facial expressions in animals and the value to animal welfare assessment</i>
<b>15:30</b>	Andy Robins	<i>Cognitive lateralization in cattle herds responding to a human stressor</i>
<b>15:45</b>	Ellen Jongman	<i>Heat stress affects the time budget of dairy cows in an automatic milking system</i>
<b>16:00</b>	Jashim Uddin	<i>Could infrared thermography be used to indicate level of anxiety in dairy cows?</i>
<b>16:15</b>	Emily Grant	<i>Qualitative behavioural assessment (QBA) can identify differences in sheep behaviour related to intestinal parasite burden</i>
<b>16:30</b>	Conference closing	

Following the conference close we will take the CityCat ferry to Southbank for casual drinks and dinner. All are welcome to join us!
